

Van Pilkington

PRESIDENT

YEARS WITH THE COMPANY: 37

B.A. in Applied Business Communications | University of Utah

Van is the President and Founder of Pilkington Metal Finishing. He started the company alongside his father from a cinderblock garage in 1981. Van has an innate ability to gather together talented and hard-working people and is proud of the Pilkington team, now 220+ employees strong. His commitment to customer satisfaction and premier quality have been guiding principles of Pilkington Metal Finishing for the past 37 years.

David Pilkington

VP OPERATIONS

YEARS WITH THE COMPANY: 28

B.S. of Geophysics | University of Utah

David has been a practical and visionary force behind Pilkington Metal Finishing since he joined his brother Van in 1990. David has been a major catalyst of growth with an imaginative and consistent confidence about the future of the company. With a strong mathematical mind, he oversees the company's operations - always sticking to the numbers.

Wayne VanTassell

QUALITY MANAGER

YEARS WITH THE COMPANY: 12

B.S. in Chemical Engineering | Brigham Young University

With the addition of Wayne VanTassell to the Pilkington Metal Finishing team in 2005, the company has gained substantial credibility through many rigorous accreditations. These include the prestigious Nadcap certifications. Wayne brings over 35 years of experience from a myriad of industries. By pairing his expansive knowledge of specifications with his profound sense of process, Wayne has prepared Pilkington to meet the quality needs of the most discerning of customers.
